

## CARDSTOCK & RIBBON COLOUR CHART

## CARDSTOCK COLOURS

In this guide, you will find electronic representations of the many different shades of cardstock that we can offer.

Please note that whilst the colours are represented as accurately as possible, the colours may differ depending on screen and print settings and are only intended as a guide. We would always recommend ordering a sample before committing to a colour from this chart.

We offer a variety of cardstock, including matte, pearlescent and textured.

## RIBBON COLOURS

You will also find electronic representations of the colours and shades of ribbon available for those designs that feature it.

As with the cardstock, this guide is purely an indication and the colour may differ depending on screen and print settings.

This guide features our most popular ribbon choice, double sided satin. We can also offer organza, velvet and grosgrain upon request.

# CARDSTOCK COLOURS

## RECYCLED

Whilst all of our cardstock is at the very least, FSC Certified, the selection below offer our most environmentally friendly cardstock options including 100% recycled cardstock, 30% post consumer recycled waste which is produced with 100% green energy. The carbon footprint is also reduced by 20% using by-products and 100% green energy such as wind and solar.

# CARDSTOCK COLOURS

## PEARLESCENT

Pearlescent cardstock offers a subtle touch of glamour by way of the slightly metallic finish to the cardstock which shimmers beautifully.
